

FirstEnergy's Pennsylvania Electric Companies Energy Efficient New Homes Program

Energy-efficient new homes are an investment for your wallet and your well-being.

As a participating builder of the Pennsylvania Electric Companies Energy Efficient New Homes Program, RGB Custom Home Builders' homes are built with superior construction techniques that far exceed the standard, providing homeowners with:

Quality

✓ Home Energy Rating System (HERS) verified, providing independent third-party verification

✓ Reassurance that the home was built right the first time

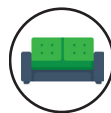

Performance

✓ Air movement controlled to eliminate drafts

✓ Increased HVAC efficiency and lifespan

Comfort

✓ Consistent temperature in the home, reducing or eliminating cold spots

✓ Reduced outside noise

Health

✓ Protection against condensation, mold, and outside pests

✓ Improved indoor air quality

Bushkill Center Road

Quality-built for superior energy-performance, comfort, and indoor air quality

New homes by RGB Custom Home Builders are built to achieve the high energy efficiency standards of the FirstEnergy's Pennsylvania Electric Companies Energy Efficient New Homes Program, receiving third-party testing and verification to ensure the home outperforms current energy code requirements. Program approved homes offer more in-home comfort, help use less energy, and reduce utility bills. They also provide better temperature and humidity control and reduce the impact of the outside elements such as drafts, noise, and pollutants.

Home Details:

- 4 bedrooms / 3 bathrooms
- 4,715 square feet
- Motorized window blinds
- 57-panel, 335-watt solar array
- 3-car garage
